4. Teaching pupils with SEN

All pupils with SEN are taught a full range of subjects by teachers with training and experience of adapting lessons to make them accessible but appropriately challenging for all pupils. Pupils have access to all aspects of the curriculum unless otherwise stated in a published EHC plan.

The quality of every teachers' provision for pupils with SEN is observed, monitored and challenged as part of the academy's quality assurance processes and the teachers' annual performance management arrangements.

The academy provides regular training throughout the year to support teachers in addressing specific SEN ensuring that pupils receive 'quality first teaching'.

Our aim is to encourage and prepare all pupils to become independent learners.

Some classes provide additional support in the classroom to help pupils access the lessons. Special Access Arrangements may be put in place for examinations. Targeted pupils may access additional learning opportunities to help them catch up.
